Personnel Director

Research and Planning Staff

Notice and PIM on Review of Personnel Actions Affecting Career Employees

1. The attached drafts of a Notice and PIM have been given preliminary review by your Office and have been coordinated within the Personnel Office.

2. All of the comments received have been incorporated in the drafts except the following:

a. The Chief of the Testing and Evaluation Division recommends that the requests be reviewed by Career Service Boards rather than Component heads. In accordance with your instructions, Component heads have been made responsible for the review function, although cognizance is taken of the role of career service boards in the process. The proposed Notice states that these requests should ordinarily be presented by the Component head to the Component Career Service Board for its review and recommendation.

b. Two comments were made by PID and these have been satisfactorily resolved without necessitating any changes in the proposed documents.

3. Your approval and signature are recommended.
